Octalsoft is a market leader in the fields of eclinical solutions, custom software development, and technology consulting. Established in 2007, Octalsoft has over a decade of experience and a team of 60+ experts who have delivered consistent success with over 30000 platform users and a clientele spread across 22 countries.

With a zeal to lead the gamut in the creation of the health tech sphere’s most advanced technologies, Octalsoft functions with the purpose of empowering the health tech ecosystem with prolific tech that changes the paradigm of how sponsors, CROs, sites, and depots conduct business, engage with their customers, and ultimately bring transformational value to the patient’s quality of life. With a comprehensive eClinical suite that extends to EDC, CTMS, RTSM, ePro, and a lot more—a range of ultra-efficient management tools for life sciences and businesses in general—our mission is to generate the highest value for our clients and be part of their growth story.
