ProLEAP is a Flagship Job-oriented Internship driven program that aims to bridge the acute gap between formal education and the industry by supporting organizations in their efforts to groom skillful IT professionals through a virtual platform. India operations are supported by our technology partner - Prodevans Technologies with its registered office in Bangalore. Our Vision is to create equal opportunities for current and aspiring IT professionals through virtual mentoring, thereby providing a global talent pool representing all streams of society for tech recruitment. Our Mission is to provide a world-className virtual cloud-based platform to students and professionals for them to develop critical employable skills through mentor-guided programs, thus helping corporates recruit skilled graduating students from ProLEAP.
