Aerem is India's end-to-end platform making solar adoption simple for MSMEs and homeowners, empowering them to harness the power of sun and reduce electricity cost by up to 80%. Our strength lies in delivering a comprehensive approach that addresses every friction point in solar adoption — from finding the right installer to ensuring the right price, equipment, quality, and financing. We operate India's only RBI-licensed solar-focused NBFC and SunStore, a B2B marketplace that connects OEMs, distributors, and installation partners in a seamless ecosystem. This entire experience comes together on our integrated digital platform, allowing customers to manage their solar journey—from start to savings—in one place. Backed by Blume Ventures, UTEC, Avaana Capital, British International Investment (BII), SE Ventures, and Riverwalk Holdings, we are dedicated to transforming India's solar energy landscape while delivering exceptional returns for businesses and supporting local solar entrepreneurs.
