Mobile Number	09953816139
Email	backup.gigmax@gmail.com

Gigmax was founded in 2014 with a mission to provide high-speed internet with no hassle. We saw the need for faster, more reliable internet in our community. We often got frustrated with outdated DSL and cable networks, we knew there had to be a better way.

After researching the capabilities of fiber optic internet, the team set out to build a super-fast fiber network to meet our neighborhood's connectivity needs. We started small by providing Broadband Internet Solutions in Faridabad. As we expanded throughout the region, Gigmax gained a reputation for outstanding speed, quality service, and exceptional customer support.

Now, over a decade later, Gigmax offers internet connectivity to 1000+ families. See how far we've come, and let us connect with you next!
