Ihriday – Occupational Therapy Services in Vadodara
Pediatric Occupational Therapy
– Therapy for children with developmental delays, autism, ADHD, sensory processing issues, and learning difficulties.

Sensory Integration Therapy
– Helps children and adults with sensory modulation issues to better process and respond to sensory input.

Fine Motor Skill Development
– Improves hand-eye coordination, grasping, writing, and other precision-based activities.

Gross Motor Skill Training
– Focuses on body coordination, balance, posture, and movement-related skills.

Cognitive Rehabilitation
– Enhances memory, attention, problem-solving, and executive functioning skills for individuals recovering from injury or with cognitive impairments.

Activities of Daily Living (ADL) Training
– Supports independence in everyday tasks like dressing, grooming, eating, and toileting.

Hand Therapy
– Rehabilitation for hand injuries, fractures, or conditions like carpal tunnel and arthritis.

Therapy for Neurological Conditions
– Support for individuals with conditions such as cerebral palsy, stroke, multiple sclerosis, or Parkinson’s disease.

Behavioral and Emotional Support
– Helps manage anxiety, social difficulties, and emotional regulation, especially in children.

Parent and Caregiver Guidance
– Training and support to help caregivers implement therapeutic strategies at home
