IT Manthan is a leading institute that offers a Python Summer Training Program for students and professionals who want to learn the basics and advanced concepts of Python programming. The program covers topics such as data structures, algorithms, object-oriented programming, web development, data analysis, machine learning, and more. The program also provides hands-on projects and assignments to help the participants apply their skills and gain practical experience. The program is conducted by experienced and certified trainers who have expertise in Python and its applications. The program is suitable for anyone who wants to enhance their career prospects in the field of IT and software development.
