Kodestree Technologies supports aspiring IT professionals with structured training programs that combine technical knowledge with practical experience. Located near Kundalahalli Gate in Bangalore, our institute offers courses in Data Science, Data Analytics, Cloud Computing, and other software technologies. We focus on helping learners understand industry tools, work on practical assignments, and gain experience through project-based learning. Our training is suitable for freshers, students, working professionals, and individuals seeking new career paths. To support career development, we provide resume guidance, interview preparation, and placement assistance. Learners across India can also access our online classes and develop technology skills from their preferred location.
