let us define physiotherapy. People have mentioned many things regarding physiotherapy as it is. Physiotherapy is a type of treatment that is used to What it means: The term “physiotherapy” refers to a therapeutic method. This course focuses on movement science. It is the science of using physical tools to diagnose and cure injuries and diseases. Which aids in the restoration, maintenance, and enhancement of people’s physical strength, function, speed, and general satisfaction. Physiotherapists are health professionals who provide physical treatment. They have received extensive training. With a master’s degree in physical therapy, you’ll be able to figure out what’s causing your injury. They also take care of them. Its major goal is to relieve pain and decrease blame through the use of physical techniques.
