TAKNIK INC, established in 2017, is a multi-disciplinary company specialising in Chemical Engineering Consultancy and the manufacturing and supply of chemicals. With a diverse portfolio, TAKNIK INC offers high-quality solutions in Industrial Waste Water Treatment Plants, Zero Liquid Discharge Systems, and Chemical Process Plant Equipment Manufacturing. As a trusted Chemical Engineering Consultant, the organisation emphasises trust, transparency, and innovation while delivering customised solutions tailored to client needs. With a strong focus on after-sales support and continuous development, TAKNIK INC leads the way in Waste Water Treatment Services, ensuring that the company remains at the forefront of the industry by providing exceptional service and expertise.
