Tutort Academy offers 1:1 live classes and personalised mentorship from MAANG and product-company professionals, helping students and working professionals build practical, industry-ready skills. Our programs focus on Generative AI, Agentic AI, Data Structures & Algorithms (DSA), System Design, Software Development, Full Stack Development, and AI/ML. Learners gain hands-on experience through real-world projects, assignments, doubt-solving sessions, mock interviews, personalised career guidance, and placement support. Our learners work at leading companies such as Google, Microsoft, Amazon, PayPal, and other reputed organisations. We focus on affordable, outcome-driven learning designed to bridge the gap between academic knowledge and industry requirements.
