"Established by Mr. Sunil Gosavi, Yash Plastrotech has been flourished and nurtured with great courage and against all odds to make it one of the most reputable plastic molding companies in India. The whole concept behind the establishment of this firm was putting our talents and abilities to use in a way that served others. Having stumbled into failures multiple times, we had the most important quality of rising up and fighting back.

We strived harder to prove to this society that material wealth is not the ONLY component of success. We renovated and reinforced the whole new definition of SUCCESS by living our life with purpose and having creative freedom in whatever we do. We had the courage to inspire others by bringing change in this traditional system of measuring success in terms of wealth. Our greatest glory was not in growing rich with our worthy customers but in building strong long term relationships and understanding and serving the varying business needs of our valued customers.

When it comes to QUALITY we use our skills and potential to the greatest extent and make sure we deliver you the excellent product. We know we owe you excellence and we are committed to provide you with the best we have."
