Digital Labour Chowk is India's first technology-driven virtual labour chowk, connecting daily wage workers with job opportunities across the country. Our platform empowers workers to apply for PAN India jobs, boosting their bargaining power and enabling them to build credible digital profiles. We support skill development and link workers to essential financial and social security services, helping improve their quality of life and future prospects. At DLC, our vision is to create the world's largest verified and profiled workforce of daily wage workers—skilled, empowered, and ready for hiring—bridging the gap between opportunity and talent across Bharat.
