During the first 3 years of life, your child develops more rapidly than at any other time. During this phase, the child absorbs large amounts of information from the environment through observation and experiences. These are the years that lay the foundation for later learning—and the stronger the foundation, the more the child will be able to build upon it. At Downtown Dumplings Montessori in Juhu, Mumbai your toddler will be with teachers—loving, nurturing, and rigorously trained in child development—who create peaceful, supportive, and safe environments for our youngest children.
