Dr L H Hiranandani Hospital is a 240 bedded multispeciality, tertiary and quaternary care hospital. It is the Mumbai's first NABH accredited hospital. It is also the winner of Ramkrishna Bajaj National Quality Award and the International Asia Pacific Quality Award for Healthcare. Today, our hospital is on the same platform as the leading hospitals in the country and we have done this in 8 years.

We commissioned in the year 2004 and by the year 2009 we were feeling the strain on the infrastructure and had to increase not only the beds but add on medical equipment and change the existing medical equipment for the latest models. We added radiation oncology, bone marrow transplant, dental centre, a new executive health check area, sports medicine and a new physiotherapy department, revamped the entire operation theatre medical equipment and the monitoring systems in the ICU with equipments launched by the world's leading manufacturers of 2010 vintage.

Even the rooms are focused on patient safety and all rooms of the hospital are directly linked to the nursing station for patient monitoring and to the ICU. The hospital is also equipped with an advanced voice interactive nurse call systems that can actually call a nurse from different floor, should an emergency arise. Antibiotic policies are in place and so are infection control policies. Our hospital follows strict guidelines of International Nosocomial Infection Control Consortium to control hospital related infections. We have only bettered their standards recommend for hospital by laying down rigid protocols.

#### Advanced Cancer Care

International Oncology Services Pvt. Ltd. (IOSPL) brings world class cancer care at Dr L H Hiranandani Hospital. It is an outsourced service. It is a dedicated facility, a one-stop specialist centre providing a range of cancer treatment options like radiation, medical treatment, surgical treatment and bone marrow transplant.

#### Centre for Advanced Dental Surgery

Our new dental facility is a premier centre for specialist dental care. It houses a number of specialty departments, working together to provide the full spectrum of advanced dental treatment - from complex corrective measures to special aesthetic solutions.

#### Physical Rehabilitation and Sports Medicine Centre

Our rehabilitation and sports medicine centre is a new, state-of-the-art facility, fully equipped for high-quality care customized for unique patient needs.

#### Executive Health Check

We are delighted to offer comprehensive health check-up packages,

tailored to meet the needs of busy professionals and their families with all services under one roof.

Advanced wound care and Hyperbaric oxygen therapy

Advanced Wound Care and Hyperbaric Oxygen Therapy by Innovative healing systems is a modern centre with two new and latest hyperbaric chambers with trained doctors and high safety standards. The centre will be started in February 2013.

Each initiative-Floods, earthquakes, etc. and AOH's response to them

The hospital has an internal fire safety and flood management plan. Regular drill for fire safety and hospital evacuation are performed. The hospital does not have the inherent capability of sending medical teams to disaster areas to manage. We however, enjoin such teams with staff & medicines as support services. The hospital has participated with the state government's medical camp at Saki Naka during the floods that devastated Mumbai in 2005. The hospital was also the sanctuary site for all those who were stranded in the region of Powai. They found here shelter, hot food and bunk bedding!

Health and Development

Projects

After completing the Dr L H Hiranandani Hospital, the team also forged and successfully executed the first Public Private Partnership to remodel and design a multispecialty tertiary care hospital for Navi Mumbai Municipal Corporation. The group is now engaged in constructing a 200 bedded multispecialty superspecialty hospital at Thane. Expansion of Dr L H Hiranandani Hospital was also a technical, architectural and constitutional challenge and we overcame it. Arguably this is the first of its kind in the world where a hospital was constructed over an existing fully operational hospital and that to without suspending a day operation!

Volunteers

MBA Foundation: Serving the disabled: Since year 2007 we support the MBA Foundation - NGO to serve the disabled, by providing free health check annually for the beneficiaries which includes investigations from

basic to the high end.

Health Awareness: The hospital holds weekly (Sunday) health awareness talks for the community of Powai

Walkathon – Breast Cancer Awareness: Dr L H Hiranandani Hospital in collaboration with International Oncology Services Pvt. Ltd. organizes Walkathon in October since 2010. It is to create and spread awareness about breast cancer.

World AIDS Day: Since inception, we have created awareness on the World AIDS Day by an interschool debate with a rolling trophy.

Run Powai Run – to remain in the Pink of the health is an initiative to spread the awareness about the enormous benefits of exercise for healthy living. A 10 km Run and 4 km walk is organized by Dr L H Hiranandani Hospital and the Hiranandani Group, in association with the Rotary Club of Mumbai, Lakers.
