We are global team of BIM and programming experts assisting in digital building designs and construction processes. We specialize in BIM implementation and provide BIM support services in the AEC industry.

We offer a wide range of BIM solutions in the construction, installation, fabrication, civil engineering, infrastructure and manufacturing industries.

We are an authorized Tekla Training centre and provide in-company or classroom training to students, employees and professionals to enhance their skills in the BIM domain. Our services and solutions span the entire construction industry:

Our core offerings:

3D Modeling and Coordination

[Scan to BIM](#)

Estimation and Scheduling

Construction Simulation

BIM Component Creation

BIM Project Documentation

Walkthroughs & Renderings
