Fortis La Femme (Centre for Women), a unique facility, is inspired by the core belief that a woman is a very special person with special needs. Medical care at the hospital spans but is not limited to Obstetrics (Painless Labour), Gynaecology, Neonatology (Level III NICU), Anaesthesia, General & Laparoscopic Surgery, Cosmetic Surgeries and Genetic & Foetal Medicine.

The hospital facilitates care for all the stages of a woman's lifespan- birth, adolescence, motherhood, menopause and beyond. Our patient-sensitive services are provided in a world-class facility with a discreetly elegant ambience laden with value-added conveniences.

Impressed with the dedication to quality care services, the hospital was chosen as the Winner of Child magazine's 'Most Popular Awards' 2013 under the category of 'Most Popular Maternity Hospitals'. The hospital commenced operations in August 2004, and since then, it has performed more than 11,000 deliveries and over 7,500 gynaecological procedures.

The hospital has air lifted sick babies to the Level III Neonatal Intensive Care Unit (NICU); treated more than 4,500 in the unit, and successfully saved lives of critically ill babies from 25 weeks gestation and birth weight of less than 600 grams.

In the year 2010, the hospital got NABH accreditation, and was

successfully re-accredited in 2013.

Currently the hospital has 38 beds with latest medical amenities.
