Veer O Metals first opened its doors in 1965. Stamped Parts, Precision [Sheet Metal Fabrication Parts](#), Machined Components, and Mechanical Assemblies are among the products we produce. For Design & Development, we have a strong in-house Mechanical Engineering and Manufacturing team dedicated to offering high-end, industry-specific design solutions.

With our transparent and global processes, we have built a solid customer base at both the national and international levels, while maintaining robust quality management systems. We have added a new dimension to our already extensive range of product manufacture and assembly by generating indigenously created items that meet global requirements for diverse sectors.
