Satec Envir Engineering (India) Pvt. Ltd. has its manufacturing facilities in Bhuj (Gujarat, India), spread over five acres. The construction shed spans 1,40,000 square feet, leaving sufficient room to service the large sized and fast-growing demand.

Our PUF manufacturing plant is imported from Italy and Germany and is spread over 10,000 sq. ft. We have the capacity to manufacture 36,00,000 square feet of panels annually.

A fabrication shop over an area of 80,000 square feet with an installed capacity of 48,000 tons per year is dedicated for the manufacturing of telecom towers, transmission towers and auto component. We also have our own galvanizing and powder coating unit spread over 40,000 sq. ft. with an installed capacity of 36,000 tons per year.

Our facilities have won numerous accolades and are ranked as one of the best by industry leaders including Ericsson, Tata projects and ETPIL.

Our head office is located in Mumbai and serves as a great working

space with a warm and comfortable environment.
