Visual Media Technology is a Computer Animation Training Institute providing professional training in Graphics, Animation, Multimedia and Fashion Designing in CAD. It has successfully carved a niche for itself in the competitive world of technology by providing quality education and placement opportunities to the students. The prime objective of the computer animation school is to provide excellent and comprehensive training to the students who want a career in the world of Multimedia, Web, and Fashions. Our instructors are industry professionals who have worked on feature films, commercials, print and digital media. We know that it is not the technology that drives results, but the artist. Therefore, our instructors are industry professionals with traditional backgrounds who started using the technology to bring their imaginations to life. Visual Media Technology, Institute of Advanced Animation is an innovative training facility that stresses the importance of creativity in computer graphics. We believe, that while technology offers new tools to create your visions, it is our ultimate goal to allow you to interact transparently with the software.
