In the stock market, we heard that 99% of retail investors, who invest their hard-earned money in stocks and commodity markets lose their money. This is because these people enter the market without having any knowledge. Proper education is a must before start trading in stocks, futures, commodities or in the currency market.

Smart Investor course is specially developed for the beginners and freshers who want to learn and understand what is share market, how it works, how to invest in share market, futures and options market, commodity market and currency / forex market, what are the dos and donts for investors and traders in stock market, what rules they have to follow while trading in stock market, how to trade online etc.
