Chlorinated polyvinyl chloride (CPVC) is a thermoplastic material manufactured by the process chlorination of polyvinyl chloride (PVC) resin. The main features of CPVC pipes & fittings are flexible and they can withstand higher temperatures compared to standard PVC pipes. These CPVC pipes can handle both hot and cold water and also used in the industries for various other liquid handling. They are quality pipes used for the safe transport of potable water. Aqua Excel is a manufacturer of the standard CPVC pipes & fittings for various industries like Malls, Hotels, hospitals, etc. Aqua Excel produces different [CPVC pipes & fittings](#) like

CPVC pipe SDR 11

A manhole cover or maintenance hole cover is a detachable thing which is used as a lid over the opening of a manhole. Manhole is a hole large enough for a person to fall. Aqua Excel manufacture and supplies manhole cover that can avoid accidents of people falling in manholes and make an access point for maintenance and other work on an underground utility vault or pipe. The [manhole cover and frame](#) of aqua excel are more resistance to any temperature or climate changes, they are robust enough where heavy objects can move on, more durable.
