InstaDispatch is a strong cloud-based **[courier management software](#)** that offers complete end to end solution for small and medium courier and logistics companies. This online dispatch software covers all major characteristics of a parcel business. Our software is specially designed to meet the demanding and time-sensitive requirements of delivery businesses.

Our application is integrated with major providers like DHL, TNT, Parcel Force, UKmail and DPD. Some more providers are soon going to add the list in coming months.

It is a one-stop solution for courier agencies, corporates and franchisees. We offer numerous benefits to corporates as well as courier companies.

Insta Dispatch offers one of the best delivery dispatch software which is loaded with advanced features and offers a range of flexible solutions to suit your business.

We have a proven record of generating measurable diversification and extension of our clients' businesses.

If you are excited to see all the wonderful features, then book a demo by visiting our website and let one of our experts guide you through this change.
