Darren is one of many of our happy customers. He was looking for a reliable team of developers that compliments his team in the UK. And he found one in Acquaint Softtech Private Limited. He got support from us even on weekends which was a major relief for him. The path to project completion wasn't easy and was laid with many potholes. As he mentions in the video, his website was hacked and we were there to help him get back on track immediately. This has led to years of partnership between us for multiple projects.
