Gavin Symanowitz - Founder of Feedback Rocket - has been a long-time client of Acquaint Softtech Private Limited where he found a quality team of developers and turned his idea into a reality. Gavin assembled a team of four developers, one designer, one QA tester, and one project manager from us. The distance never bothered him as he was in constant touch with us throughout the project and sailed it to completion without any hiccups. Feedback Rocket is an online survey company that helps you gather genuine feedback from your team or target audience as the participants stay anonymous. It also offers great customizations to meet your needs for the survey.
