Dakota is all praise on the quality of developers he got from Acquaint Softtech Private Limited. He was urgently seeking a team of experienced developers to get his client's project done. Fortunately, he didn't have to go any further than us. He hired five of our MERN developers for the full stack development of his client, Spearity's website. With our service, he was able to save the day and delivered his project on time. Now, he aspires to do more business with us.
