At Agni Solar, we believe the 'Sun is for Everyone'. With more than 25 years of experience, we have mastered the art of harnessing the sun's energy, for our consumers.

Started by Ravi Pittie, in 1993, Agni Solar began as an R&D outfit to explore new solar technologies. A graduate of Michigan State University, he has been a pioneer in bringing solar water heating systems to India.

The innovation didn't stop there. Driven by the desire to bring solar technology to everyone in India, today we use our expertise to provide a host of products in solar thermal, solar rooftop and off-grid solar paired with maintenance services.
