Finding the right school can be stressful, but Edustoke simplifies the process. It is India's largest school search and admissions platform with details of more than 25,000 schools—from play schools and day schools to international and [boarding schools](#).

Parents can use the website to:

- Search schools based on location, budget, board, and other filters.
- See detailed profiles with information on fees, facilities, admission dates, and reviews.
- Shortlist and compare schools easily.
- Apply online without visiting multiple campuses.
- Get guidance from experienced counselors for personalized advice.

Edustoke also supports schools by giving them tools to update their profiles, showcase their facilities, and connect with genuine parent leads. Since starting in 2016, the platform has helped millions of parents and thousands of schools connect in a simple, transparent way.
