Expand is India's best-fit ERP on cloud for the Retailers & Exporters in the midsized manufacturing business. It drives business efficiency with ease by perfectly fitting into the existing business process and effectively automating most complex processes, unlike many such 'one size fits all ERPs' which doesn't give desired results to specific businesses. With Expand ERP one can manage his entire business completely online.

With over 15 years of extensive R&D and market testing, this unique software had been developed by eDominer Technologies Pvt Ltd, headquartered in Kolkata and with branch offices in Bangalore and Delhi NCR. The organization is led by Vineet Bansal who is a technology expert and Microsoft most valued professional with a combination of bachelor in commerce along with a strong team of over thirty implementers and developers.
