GROWiT India Private Limited is a Surat, Gujarat-based company in the field of agriculture in India. The company introduced an extensive range of protected farming and innovative products to improve farm productivity and quality to increase farmer income.

The company manufactures and distributes protective farming equipment like mulch, crop cover, fruit cover, etc.

We provide high-quality and cost-effective solutions to meet the needs of our farmers.

Since its launch in 2017, our mulch has a proven track record of enhancing Yield & Crop Quality by 30-40%. (and reduce input cost) With a 100% focus on sustainability, GROWiT is developing high-quality products that are helping farmers to utilize minimum water and control the consumption of pesticides.
