Metinox Overseas has a long history spanning over 45 years in the industrial raw materials sector. Our family business started with Laxmi Metal Syndicate in 1972, followed by Mukesh Steel House in 1991 and Bhavik Steel House in 2001.

We're a partnership firm focused on manufacturing and exporting industrial raw materials. Our company is ISO and PED certified, and we work closely with Indian and international stainless steel pipes and fittings manufacturers.

With warehouses in Mumbai, Kalamboli, and Taloja, we stock a wide range of products in various materials, including stainless steel, carbon steel, alloy steel, duplex and super duplex steel, and more. Our team of 20 skilled and unskilled staff ensures prompt service and delivery.
