NCQC Laboratory LLP is a leading ISO/IEC 17025 NABL accredited calibration laboratory providing reliable and accurate instrument calibration, validation, testing, and consultancy services across India. Established in 1998, the laboratory specializes in precision calibration solutions for industrial, pharmaceutical, automotive, medical, manufacturing, and other sectors.

The company offers comprehensive calibration services for dimensional instruments, electro-technical equipment, thermal instruments, pressure instruments, force, hardness and torque devices, mass and volume instruments, medical devices, flow meters, airflow sensors, acceleration and speed-related instruments, and other specialized measuring equipment.

With advanced laboratory facilities and on-site calibration support, NCQC Laboratory helps businesses maintain measurement accuracy, quality compliance, and regulatory requirements. The organization also provides qualification, validation, training, documentation support, repair assistance, and calibration consultancy services with fast turnaround and customer-focused solutions.
