Primebook is an Android based laptop for learning, powered with 4G wireless sim connectivity and runs on Prime OS the brands proprietary Android 11-based operating system; that has been extensively tested for compatibility with over 10000+ education, learning and entertainment centric applications. The laptop allows students to work in a multi window format, allowing a more productive learning experience that cannot be compared to a mobile phone / tablet that comes at a similar price point. Primebook4G comes with a 64 GB storage (expandable to 200 GB) offering ample space for documents, photos, and videos that are critical for seamless learning in today’s day and age.
