[Rama Cylinders](#) has established itself as a pioneer in the manufacturing of high-quality steel cylinders and related products, including accumulators, vessels, tanks, and pipes. With an impressive installation capacity of 700,000 units per annum across our two facilities, we are committed to excellence in production.

As a certified company under ISO 9001, ISO 14001, and OHSAS 18001, Rama Cylinders specialises in the manufacture of CNG, industrial, and fire-fighting cylinders, as well as cascades of various capacities. Our offerings include cylinders ranging from 1.5 litres to 200 litres, and CNG/Bio CNG cascades from 300 litres to 4500 litres, tailored to meet our customers' specific requirements in both single-bank and three-bank systems.
