Thangam Hospital of PMRC, located in Palakkad, is a premier healthcare institution offering an extensive range of super specialty services. With its commitment to medical excellence, the hospital provides cutting-edge treatments in cardiology, oncology, nephrology, orthopedics, and more. Thangam PMRC is equipped with state-of-the-art diagnostic and surgical equipment, ensuring precise and effective patient care. Their team of highly qualified specialists focuses on delivering personalized treatment plans, supported by advanced medical technology and a holistic approach to patient wellness.

The hospital's Cardiology Department is renowned for providing high-end cardiac care, including complex angioplasties, heart surgeries, and minimally invasive procedures. With an integrated care model, they address heart health through preventive care, diagnosis, and rehabilitation services. Their dedicated cancer center offers multi-disciplinary care, including chemotherapy, radiation, and surgical oncology, focusing on delivering patient-centric treatment that meets global standards.

Thangam PMRC also excels in orthopedic and trauma care, providing

services like joint replacement, arthroscopy, and fracture management. Their experienced surgeons use the latest techniques, ensuring swift recovery and mobility for patients. The hospital's Nephrology Department offers world-class renal care, with comprehensive dialysis units and advanced treatments for kidney disorders.

In addition to its specialized services, the hospital's infrastructure is designed to enhance patient comfort. Modern ICUs, advanced operation theaters, and 24/7 emergency services ensure timely intervention in critical cases. With a compassionate approach, Thangam PMRC also provides pediatric care, gynecology, and general medicine, catering to the entire family's healthcare needs.
