USA's & UAE's #1 AI-Powered Data, Cloud & Automation Excellence Company

Wronit Technocraft Pvt Ltd works with businesses to make better use of data analytics, data engineering, database services, ML & AI solutions, cloud platforms, and RPA robotic process automation—helping them grow more efficiently. Even though Wronit began in 2024, our team brings decades of hands-on experience working with real business challenges.

We've teamed up with over 500 companies on more than 1,200 projects. From helping them shift to the cloud to building tools that fit their daily operations—we focus on what works. Every project has a go-to person for clients, and our 200+ engineers and tech experts make sure it all runs smoothly.

We also help set up automation that saves time—from small repeat tasks to more advanced tools, depending on what the client needs. We also build automation frameworks—from RPA to tailored Gen AI integrations—that remove manual effort and increase business

velocity.

At Wronit, we don't just plug in tools. We listen to what each client needs and build solutions that work now—and can grow with them later.

We offer:

Cloud Data Migration – seamless, secure, and structured

Data Warehousing Services – unified, scalable, and ready for insights

Big Data Analytics Solutions – actionable business intelligence in real time

Data Analytics Consulting – turning raw numbers into roadmaps

Software Product Engineering Services – custom-built, data-driven apps for the enterprise

Whether you're a startup looking to build fast or an enterprise aiming to modernize at scale, Wronit delivers the tools, tech, and team to make it happen.

Every business runs on data. The best ones run on Wronit. Partner with us and unlock the power of automation, AI, and data analytics—today. Let's create your intelligent enterprise now! Connect at: info@itswronit.com.
