VoIP stands for Voice over Internet Protocol or IP telephony- a technology that manages the delivery of voice information over the internet. Pulse is one of India's best VoIP service providers due to the quality of service and 24/7 instant support offered. Our company has addressed VoIP in the best possible manner, which has made us the market leader today. We are the most preferred name for VoIP services by top-notch businesses, corporates, and individuals in India. Our services mainly specialize in Unconditional unlimited calling to various destinations with PSTN quality calling with advanced features.

We offer proven and customised solutions for any enterprise to make international calls for business development, quality assurance, and inter and intra office communication. Pulse has its own infrastructure with multiple VoIP switches parked in India and abroad to support clients with no downtime for the service offered. By choosing Pulse's VoIP and Internet telephony, businesses can avoid the tolls charged by ordinary telephone services.
